Relevant Coursework:

- Data Structures and Algorithms
- Object-Oriented Programming
- Operating Systems
- Software Engineering
- Web Development

Projects:

PORTFOLIO WEBSITE

Developed a clone of a popular portfolio website using HTML, CSS, and JavaScript. Implemented responsive design techniques to ensure optimal user experience across different devices.

NETFLIX CLONE

Designed and developed the frontend for a Netflix clone using HTML, CSS, and JavaScript. Implemented a visually appealing and user-friendly interface, closely resembling the original Netflix website. UI/UX design, and attention to detail in recreating the Netflix frontend.

Skills

Programming Languages: C, C++, Python
Web Technologies: HTML, CSS, JavaScript
Databases: SQL
Version Control: Git
Problem Solving

Analytical Thinking Strong
Communication and Teamwork
Time Management and
Organizational Skills

Languages

English

Hindi

Certificates

C++ with DSA

May 2023

Successfully completed a comprehensive certification program in C++ programming language with a focus on Data Structures and Algorithms. Acquired in-depth knowledge of OOPS principles.

Full stack Web D using python

Oct 2022

Gaining proficiency in both frontend and backend technologies. Acquired hands-on experience in building interactive and dynamic web applications. Developed a solid understanding of HTML, CSS, and JavaScript for frontend development. On the backend, gained expertise in server-side programming using technologies like Node.js or Django.

The certification highlights a strong foundation in full stack web development, encompassing both the client and server sides of web application development.

Hobbies

- Web Design and Development
- Reading Tech Blogs or Tech News
- Open Source Contribution
